New Hope Wellness Center

Our Vision

Our vision is to assist and empower all people in discovering and embracing recovery and wellness.

Our Mission

Our mission is to provide quality wellness services to individuals and families with mental, co-occurring, and substance use disorders in order to promote recovery and wellness.

New Hope Wellness Center has been serving the Prescott and Quad City area since 2001. It is one of NAZCARE's regional training locations. New Hope and NAZCARE has many local community partnerships, including those with NAMI, Evercare, Southwest Behavioral Health, and West Yavapai Guidance Clinic to mention a few. It also has integrated services with Hope House, a transitional housing program for people with mental illness, in Prescott and with Majesty Manor, a long term housing program for people with mental illness, in Prescott Valley.

New Hope is a wonderful place for the community and consumers to come together to promote recovery. As a community-based center, it is often opened in the evening and on weekends to better serve the community with programs including recovery services and peer support.

NAZCARE has implemented a holistic approach to recovery and wellness by addressing the whole person in mind, body, and spirit.
